EXPERIENCE

METU Department of Architecture | Ankara, TR

Research Assistant | Apr 2019 – Present

- Conducted advanced research in computational design and AI applications in architecture, specifically developing a PhD thesis focusing on human-AI collaboration.
- Published 7 international and 4 national conference papers on computational design and AI integration, with an h-index of 4.
- Assisted in 10+ advanced courses and contributed to TUBITAK-funded research projects with a total funding of 150,000 USD.

micro1 | Palo Alto, CA (Remote)

AI Domain Expert, Human Data Reviewer | Apr 2026 – Present

- Prepared and reviewed over 250 complex tasks alongside specific evaluation rubrics for artificial intelligence training.
- Evaluated and designed benchmarks for complex CAD workflows to enhance world-leading AI models, achieving improvements in geometric consistency.

Turing | Palo Alto, CA (Remote)

Data Scientist, Team Lead | Jul 2024 – Mar 2026

- Led a team of 6-10 domain experts to improve world-leading AI models, reporting key performance metrics such as throughput, quality, and compliance.
- Executed 6 distinct AI projects encompassing code evaluations, problem creation, conversation ratings, and chain-of-thought evaluations, leading to the improvement of models.

Develad Media Technologies | Istanbul, TR

Technical Lead | Jun 2022 – Oct 2024

- Led end-to-end development of an innovative AR/XR sports platform, reaching over 10,000 users.
- Secured promotional partnerships with major entities including Göztepe, Galatasaray, and the Turkish National Football Team.
- Delivered real-time mixed reality experiences to large stadium audiences.

Megscope Medical Technologies | Izmir, TR

Co-Founder | Oct 2022 – Jan 2024

- Co-founded a medtech startup focused on AI-assisted diagnostic and imaging software.
- Managed product direction and technical strategy, securing a \$100,000 USD seed investment offer.

OPTIO Design Technologies | Ankara, TR

Co-Founder | Jul 2019 – Sep 2023

- Co-founded a design technology startup for automated generation and comparison of architectural design alternatives.
- Secured \$25,000 USD via TUBITAK-BiGG and a subsequent \$75,000 USD grant through TUBITAK-1507.
- Engineered an automated workflow generating detailed 3D building designs within 5 minutes.

BY Teknik | Ankara, TR

R&D Specialist | Jun 2018 – Feb 2019

- Developed innovative solutions in building design and engineering systems.
- Spearheaded 5 design projects, reducing modeling times from days to hours.

EDUCATION

Middle East Technical University (METU) | Ankara, TR

Doctor of Philosophy, Building Science | 2020 - 2026

- Thesis: *[code]sign: A Collaborative Framework Integrating Human and Artificial Intelligence in Design.*
- GPA: 4.00/4.00 (Highest possible distinction).

Master of Science, Building Science | 2017 - 2020

- Thesis: *Design-Objective Space Exploration and Multi-Objective Optimization of Initial Design Alternatives via Machine Learning.*
- GPA: 3.86/4.00 (High Honor).

Bachelor of Architecture | 2013 - 2017

- Graduated as an Honor Student, ranking 3rd out of 131 students.
- GPA: 3.46/4.00 (Honor).

SELECTED PUBLICATIONS

- *AI-Integrated Pattern Prediction Model: Exploring the Influence of Building Fabric Morphology on Land Use Pattern* (2025). Karadogan, S., Yetkin, O., Efeoglu, E., Coban, A. B. Urban Morphology in the Age of Artificial Intelligence, Proceedings of the XXXII Conference International Seminar on Urban Form (ISUF 2025), Torino, Italy.
- *Collaborating with Agents in Architectural Design and Decision-Making Process: Top-Down and Bottom-Up Case Studies Using Reinforcement Learning* (2023). Yetkin, O., Surer, E., Gonenc Sorguc, A. European Alliance for Innovation, Proceedings of the Smart Objects and Technologies for Social Good (EAI GOODTECHS 2023), Leiria, Portugal.
- *A Novel Approach for Classification of Structural Elements in a 3D Model by Supervised Learning* (2018). Yetis, G., Yetkin, O., Moon, K.P., Kilic, O. Computing for a Better Tomorrow, Proceedings of the 36th Education and Research in Computer Aided Architectural Design in Europe (eCAADe 2018), Lodz, Poland.

TECHNICAL SKILLS & LANGUAGES

- **Programming:** Python, JavaScript, HTML/CSS, C#, C++, C, R, Dart, Rust, Go, Lua.
- **Tools:** Git, Docker, GitHub Actions, Unity, Blender, Adobe Suite, Office Suite.
- **Languages:** Turkish (Native), English (Fluent), German (Beginner).

OTHER

- Member (#802) of METU Subaqua Society (METU-SAT); CMAS diving license holder.
- Former member of the Computer Olympics team at Adana Science High School.
- Educated at BİLSEM (Science and Art Centers) in arts and science; awarded in a physics project competition by TUBITAK in middle school.
- Multi-instrumentalist, playing bass guitar, drums, MIDI keyboard, and launchpad.

Detailed CV and Portfolio:
